1a	Recognize breeds of meat sheep by name, pictures or descriptions	7-11	Management
1b	Understand proper show attire and safety	7-11	Selection
 1c	Describe age of market lambs and growth	7-11	Management
1d	Identify external parts of the sheep	7-11	Selection
1e	Identify proper confirmation of sheep	7-11	Selection
lf	Describe needed housing requirements	7-11	Management
1g	Understand basic health care of sheep	7-11	Health
'9 1h	Identify normal temperature, respiration and pulse rates for sheep	7-11	Health
11 1i	Identify products from sheep and leading sheep producing areas	7-11	Selection
2a	Identify feeds for sheep	12-14	Nutrition
2b	Understand nutritional requirements for sheep and their stomach	12-14	Nutrition
	· · · ·		
2c	Understand the concern of zoonotic diseases	12-14	Health
2d	Identify fitting and showing equipment	12-14	Management
2e	Identify forages for sheep	12-14	Nutrition
2f	Compare concentrate and roughage	12-14	Nutrition
2g	Identify average gestation length in sheep	12-14	Management
2h	Understand sheep reproduction management	12-14	Management
Ba	Understand proper handling of sheep	15-17	Management
3b	Identify sheep management tools and equipment	15-17	Management
3c	Calculate daily rate-of-gain and feed conversion ratio	15-17	Nutrition
3d	Calculate lambing percentage	15-17	Management
3e	Identify wholesale / primal lamb cuts	15-17	Selection
3f	Identify the purpose of tagging and identification	15-17	Management
3g	Describe the purpose of castration, docking and flushing	15-17	Management
3h	Identify nutrient classes and purpose of each nutrient	15-17	Nutrition
3i	Identify reproductive management strategies	15-17	Management
4a	Identify retail lamb cuts	18-21	Selection
4b	Explain SSQA safety criteria	18-21	Management
4c	Explain SSQA quality criteria	18-21	Management
